THE ESSENTIAL YEAR REPORT...

At the turn of the 21st century, there were 6 billion people on Earth. No two of them were born on the exact date, time and place - everyone has a unique horoscope. This horoscope reflects personal characteristics that the individual has chosen to work with in this life. He or she meets parents, brothers and sisters, friends, teachers and finally partners, who evoke an evolutionary development for the soul.

Each individual has then a unique life that can be mapped astrologically according to the planetary movements after birth. World of Wisdom's Essential Year Report synthesizes three astrological methods to map the life journey of the individual:

- Progressions, which reflect a personal evolutionary, or karmic pattern present at birth
- Transits, which reflect collective trends that evoke specific behavior in the individual
- Solar Returns, which are horoscopes calculated for each birthday, showing what happens to the individual on the year in question. (For unknown birth times and yearly horoscopes starting on days other than your birthday, another astrological technique - horary - is used.)

This synthesis is complex. With 12 signs, 12 houses and 10 planets (with Sun and Moon) there are 1440 simple combinations. When the connection between planets are taken into consideration (aspects) and then transits and progressions, there are several hundred thousand combinations. Essential Year Report works on several thousand of these, the rest needs to be filled in with your memory and creative visualization.

This reading describes your own evolutionary journey. To understand it fully you need to understand the talents and challenges that the planetary positions at birth represent. The first part of every section of Essential Year Report explains therefore what you can expect in life based on who you are as a person. It is crucial to realize that what happens during the course of the life is constrained by these personal factors. If your love-life promises great happiness, then later trends will trigger this potential... and vice versa.

If you wish to know more in detail about your personal character and how to get the most out of your life, then our Birth Horoscope Interpreter will go into this deeply. The Essential Year Report is designed to map out the timing of events and the fulfillment of your destiny.

INTRODUCTION

At the age of 15, you meet the first really serious challenges in connection with growing up and entering the world of adults. Perhaps for the first time you are becoming aware of areas in your life where things are not going quite as they should. In some area of your life, you meet with rejection, and you are inclined to take this very personally. You build up defense mechanisms to avoid getting hurt, but you only feel more isolated and alone when you hide behind a wall. The decisions you make now in connection with relationships in particular, will be with you for many years to come. Challenges now have a lot to do with an innate tendency to be critical, both of yourself and others.

You are motivated to be helpful and place yourself at the service of others, but at the same time you need to establish limits, so that you also have the time to realize your own agenda. Ultimately you learn how you and all other beings are integrated into a greater whole. These challenges have a lot to do with a latent insecurity that you feel together with friends and groups. Early social experiences have made you defensive in relations to social demands, yet time will show that you can take a position of responsibility in relation to a group and help it grow, even if you maintain the position of an outsider. However, you will also discover just how powerful your will is. This is a year when you can achieve almost anything you want, if you put your mind to it.

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life you are searching for ways to apply your creative skills in practice. You have been working hard to overcome blockages in self-expression and to acquire the confidence to put yourself and your creativity on the line. A transition is now taking place that requires committed cooperation with others to put your skills to good use. This new influence starts growing around March - 1965 and will ebb out around March - 1967. It is no longer so much about you, but about how you integrate with others and offer your services for the benefit of the whole. In this process you will encounter challenges at work and with colleagues, which test your humility and willingness to serve. It is good training. This is also a time to focus on your body, which, if it is to serve you well, needs to be nurtured with healthy daily habits.

After a period during which relationships prospered and your circle of social influence expanded, you are ready to delve deeper into the psychological dynamics of intimate personal relationships in the period from March - 1964 to April - 1965. A deeper understanding of and empathy for others is developed, enriching your emotional and erotic life. You receive blessings both in the form of emotional generosity and material good luck.

From most of the period that spans April - 1965 to May - 1966 you have a yearning to expand your intellectual horizons either through study or travel. This is an optimistic period when you ask important questions about the meaning and direction of your life, and gain considerable philosophical insight. You will meet wise mentors who broaden your attitude, and help you define your attitude to moral issues, right and wrong and political or cultural matters.

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 15. Three very important issues that make this year special are:

- Times and conditions converge to enable you to consolidate your position at home and your status at work, just as long as you continue to work hard and shoulder responsibility. This is an excellent time for planning and building.
- A time that awakens a longing in your heart for a deeper experience of love. No one person can live up to these expectations, but a developing interest in the arts or in spiritual values can awaken a new, deeper

and more compassionate approach. Love may require some sacrifice.

- You enter an intense period which will see nothing less than a complete mental transformation process. You acquire psychological skills and in the process unearth long-buried issues. People who drain you are put in place or cast off.

These along with other influences will be examined later in the report.

Life Path

INSIGHTS AND EXPANSION IN YOUR LIFE

There are many spheres of human activity which are active at any one time, but each year there will be a focus on a particular area of your life that will absorb you more than anything else, and be at the center of the events of that year.

The theme at the age of 15 is development of educational and communication skills, networking and generally reaching out to others. There are a myriad of things to learn and tell about, and curiosity is the driving force and motivation behind many of your actions. Sisters and brothers, or other people in your network, like neighbors, can play an important role in the months ahead. Learning about the mind and how it functions is the secret of success.¹

This theme channels your power, energy and aggressions, making this a dynamic time when you can achieve a lot, if you can avoid dissipating energy through conflict. Expect interesting sexual experiences, and power battles too.²

Communication is the key in the year ahead, and your strongest motivation is to get out and about, network and improve your mind.

Creativity and self expression heighten your self-awareness and you are happy to assume a charismatic personal profile and put your reputation on the line. This enhanced self-confidence increases your powers of attraction, perhaps leading to romantic involvement or some kind of recognition or acclaim.

This is an influence which makes itself felt in your local environment and in your mental development. The focus is on contact with others – particularly neighbors and siblings – and on travel and education. Communication is the key, and you will strive to get your message across and to overcome any situation which prevents your voice from being heard.

Certain challenges arise.

There is an intangible sadness that undermines your agenda... a sense that it is all meaningless, perhaps. Be guided by this feeling into refining your vision and attuning it to a higher purpose, which involves creative work and compassion for others.³

This activates a need to find a working life that is meaningful rather than boring, perhaps where you can help others unselfishly.⁴

There are unique opportunities and challenges affecting you personally right now, which can result in significant lifestyle and relationship changes or modifications. If you would like to see your life going in a

different direction, now is the time to take the reins and choose a path which is uniquely suited to you, as described by the influences below.

Personal and relationship boost

Generally speaking this is a period of expansion and good fortune for both relationships and your personal life. You are infused by optimism, and this is born out by favorable partnership developments. This is especially apparent in the period from August 1964 to June 1965 when things flow smoothly in many areas of your life. Now is the time to go into the world with confidence; you can expect the support of influential people and mentors, and you will find that your own grasp and understanding of events reflects your innate wisdom. Travel is favored and brings you together with people who are good for you. Partners can be encountered abroad or when studying, and they too may be in an expansive phase of their life.⁵

There are times in your life when it is not enough to simply register and adjust to influences that come from the outer world. Sometimes the time comes to change the actual framework of your life. Perhaps this means adopting a new lifestyle or appearance. Perhaps the time has come to redefine who you are through who you choose to live with. The following influence shows a unique opportunity to move your life into another gear.

Meeting the trickster

If your birth time is precise then a rather tricky period begins in the months around March 1965 which puts the focus on your mental faculties, communication and interaction. This is a good period for meeting stimulating and inspiring people and for traveling around too; likewise it is a time for education initiatives, exposure to new languages and gaining knowledge. But it can also be confusing, perhaps because there are too many options to choose from, or because any innate weaknesses in communication are exposed. People you meet can lead you astray, say one thing but mean another, or fool you in some way. In partnerships too there can be several people attracting your attention, or encounters with unreliable people. If you can stick to the truth and follow the straight and narrow path, you will easily manage to negotiate the challenges and end up considerably more knowledgeable than before.⁶

Your ideas and thoughts are centered on career and professional advancement, and particularly the role communication plays in your success. The mental evolution process you are now going through will bring new professional contacts and new skills with which to advance.⁷

This initial section of the report is connected with your lifestyle and direction, and the factors described above modify this direction as you respond to outside influences and your own inner evolutionary process. Of these factors the most significant during the age of 15 are:

- fortunate developments that widen your horizons and enhance partnership. An excellent time for travel and study.
- a time of movement, meetings and encounters – not always with reliable people. You can add new talents to your portfolio, if you are not led astray.
- a time of great ingenuity and mental creativity in which you travel, network and reach out to other people to bring educational growth.

Career

SHOULDERING PROFESSIONAL RESPONSIBILITY

Every year there is a particular focus on your goals and ambitions, and a need to reformulate your mission in life and what you want to achieve. It is equally important to have a good foundation to build your successes on in terms of home and family.

A major theme as regards career during the age of 15 is your desire to work on a higher vision shared by a group or organization that may have an international agenda. Your own ego is subsumed by the group and the atmosphere at work is one of idealism and inspiration. You may also choose to go down a professional path that channels some unique, individual talent.⁹

This theme activates a deep-seated anxiety about power and powerlessness in connection with both professional and family authorities. You tend to act irrationally because of this, but if you can gain greater psychological insight, you may be able to assert more personal power.¹⁰

You are aware of your social responsibilities in your career and seek to integrate your ambitions for the greater good, which you will do in a specific fashion and in a specific area.

Empathy and compassion are far more important values than raw ambition now. You want to show that you care for people professionally, and evoke a greater spiritual, creative or artistic understanding through what you do.

The main focus is on dealings with fellow professionals and taking on leadership responsibilities. This is a time when success is in your grasp; all you have to do is accept the mantle of power and wield your authority.

Certain challenges arise.

One factor that can undermine success right now is a strong element of unpredictability and restlessness than can bring job change or relocation. You are determined to do things your way and put yourself at odds with the establishment, which may simply end with you being out of play and on your own. You may want independence but avoid provoking the powers that be.¹¹

This is connected with unsettling changes in your home, which brings detachment from the family, moves or new people entering the environment.¹²

Some factors help.

One very positive factor that helps you achieve your professional agenda is that you are able to create an intimate and caring atmosphere which provides the best conditions for both security and growth. It is as if it is in the family... the traditions are observed.¹³

This awakens feelings centered on your working environment and emotional interaction with colleagues – job security.¹⁴

Challenges and opportunities arise at this time which can bring major changes or adjustments in both your career and your domestic life. The influences described below can bring concrete change, enabling you to live and work on a new level.

Professional expansion and consolidation

In the period from February 1964 to December 1965 there are excellent conditions for growth if you are prepared to work hard and shoulder more responsibility. On the home front this is a time to establish foundations and build a strong framework for the family, even if challenges loom large for a while. In your career people in authority are willing to give you their support in return for your commitment. This is also a good time for you to consolidate your own status and gain recognition for the effort you have put in. By keeping up the good work a convergence of quite good fortune strengthens your position and it is now you can reap the benefits of earlier commitment.¹⁵

The career section of this report explains influences in the current year that can cause you to adapt or change professional goals, and make use of opportunities that come your way. Overall, in the area of family and career the major developments you can expect are:

- a time when things fall into place both at home and in your career. There is still hard work to do, but the benefits of past efforts now become apparent.
- a time when your professional life is defined by the vision of a group which has an untraditional or idealistic agenda.

Personal development

WISDOM AND EXPANSION

During the course of the year you will have a number of character-building experiences, which help you grow and develop as an individual. It is rare for any difficulty to last longer than a period of about eight months, and if you regard challenges that arise as a test that helps you become stronger, then it will be relatively easy for you to overcome them. Similarly, when events boost your confidence, it is pays to take advantage of the limited time available to capitalize on your good fortune.

With your sun in your birth chart in Cancer and in the 10th House this relates to your need to feel a sense of belonging and make emotional bonds, in connection with your career goals and ability to handle authority.

An important feature around the age of 15 is an urge to consolidate developments in your life and build a strong foundation for further growth. This is a time when you want your outer life to accurately reflect your inner worth, so material symbols can be important, not least your salary, which reflects the value that is placed on your work. Your appearance is also a focus of attention, and this is an excellent period to do physical workouts as well as to adorn yourself with style. You can play a central role taking the lead in the administration of finances and the economy.¹⁷

Certain challenges arise.

It is during this period that you feel the pull between extremely strong needs that run counter to each other. This can lead to dynamic developments in your life – even a flowering in your relationships – but you still have to find a way of balancing the need to be independent in your own right with the need to belong and merge. Family demands can conflict with your need to assert your individual rights, and in the months ahead you will have to deal with the emotions this dilemma evokes.¹⁸

Some factors help.

It is during this period that you gain access to personal healing abilities. You discover that personal pain can be a great teacher, and that your strategies for helping yourself can also be used for helping others. Perhaps it is not the cure that is crucial, what really matters is what you learn in the process of finding it.¹⁹

This is connected with something that is painful in your social life, or involvement with a friend who is wrestling with an incurable problem.²⁰

It is during this period that you are able to see things in a positive light and access your reserves of personal confidence and faith in the future. It is an excellent period for joining forces with mentors and intellectual heavyweights, and also for expanding your horizons through travel, cultural expression and intellectual attainment. Efforts are greeted with success now, and if you want something hard enough, you

will get it.²¹

This will be expressed through an expansion of your spiritual life, where the vastness of the cosmos and influential guides open up your soul.²²

Certain key influences will present challenges and opportunities to you now as regards your development as an individual. Below you will find effects described, which you will feel more or less powerfully, evoking actions that enable you to stamp your signature on events.

Insight brings influence and success

It is at this time that your insight and understanding peak to bring a sense of meaningfulness and personal satisfaction in life. Travel and intellectual development stimulate your confidence in your self and your abilities, and this has a snowball effect in creating success. You have the good fortune to meet wise people, or mentors, who can guide you into new areas of knowledge and understanding. This is the time to capitalize on your assets – a calculated expansion now will surely bring good results, especially in the period from June 1964 to May 1965. Your optimism is infectious in this period, and people seek you out to enjoy both your humor and your insights. Spiritual interests are also favored as a deeper understanding of the meaning and direction of your life dawns.²³

The personal development section of this report shows influences directly affecting your character, bringing both challenges and personal growth. Of these influences the most crucial are:

- a time when insight into your identity brings influence and success. Mentors help you expand your understanding and travel widens your horizons.

Feelings and security

EXPANSION OF EMOTIONAL INSIGHT

You are in an ongoing process of emotional development, and the focus is constantly changing. As your unconscious mind absorbs impressions during the different phases of your life, you integrate greater depth and understanding of yourself and your relationships. There are specific areas of your life where this influence has a particular significance.

With your moon in your birth chart in Aries and in the 7th House this relates to your tremendous emotional spontaneity and dynamism, and relationships will be the major playground for your feelings, as you attune strongly to the moods of others.

Emotionally the age of 15 can be said to reflect a time of great emotional intensity when you seek to explore the root cause of your motivation and behavior when bonding with others. Bonds are so strong that you are vulnerable to anxiety because of fear of loss, which you try to compensate for through manipulation and control. Old skeletons come out of the closet in a process of catharsis.²⁴

One of the main areas where this influence will be felt is in connection with your daily working life. You find yourself with a lot of administrative roles, and it seems that many of the more repetitive tasks fall on your shoulders. There are times when you can feel you are a service organ; nevertheless, learning to organize your time efficiently and understanding the importance of delegation are what it is all about.²⁵

One thing that affords considerable satisfaction for you now is the sense that your activities and emotional life afford you considerable freedom to experiment and innovate. Those you have an emotional bond to, particularly in the family, give you the space to develop other attachments that bring personal growth.²⁶

Some factors help.

You sense an easy transition to a newer and more supportive environment which can be made with the best wishes of those who have helped you in the past. A new future, with new faces and new places, brings the promise of development and growth.²⁷

In this process you need to trust in your own capacity to run the show, rather than deferring to partners.²⁸

A responsible attitude in this period means that you are able to build a secure base for those who are dependant on you, and there is a quiet confidence that you will realize your ambitions and live up to your commitments. You can expect authorities to give considerable support.²⁹

As authorities are perceived as limiting career options at this time, you need to patiently pursue your ambitions whilst shouldering heavier responsibilities.³⁰

During the year ahead you continue a trend of emotional intensity, sexual fervor and psychological searching as you strive to liberate repressed feelings that have accumulated in the past. What interests you now are the issues that are hidden beneath the surface, both in your own nature and in the souls of those you relate to on a deep level. This is also a more secretive period... you are not prepared to reveal everything you find out. Your erotic life assumes greater importance, perhaps because it is here that the deepest emotional intimacy can be found, and you are willing to break a number of taboos to gain deeper experience. At the same time you are more vulnerable emotionally, and more aware of the anxiety that emotional loss would bring, which means dealing with issues like jealousy. Materially this is a period when you may be compromised by debt.

Whilst the year starts with the focus very much on financial security, as well as on your personal assets, self worth and appearance, there is a change of emphasis around February 1965. At this time concerns about material security fade and an interest in acquiring new talents becomes paramount. Connecting to others and perfecting communication skills absorb your interest, and there may be quite a bit of travel as you network and visit contacts. The year is very much an education process for you, and it is an excellent period to go on courses and learn something new. You spend a lot of time exploring your local environment and getting to know what is going on around you. Relations with brothers and sisters can also absorb a lot of your emotional energy.

As you grow and mature emotionally, the focus shifts from one area of life to another, and you instinctively absorb the lessons connected with the many different emotional facets of your life.

- Around December 1964 there are fortuitous contacts that stimulate you tremendously. You meet people of like mind on your travels, and the resultant exchange of ideas boosts the flow of ideas. You just have to communicate what you learn, and this information is valuable for your work, especially as regards education and networking. You are probably on the move at this time.³¹

- Around February 1965 you are shaken by an event of considerable emotional intensity that undermines your security and awakens your anxiety. Probably someone is making far too intense demands on you, and this may be the time for you to cut unhealthy bonds that are characterized by over-dependence and power battles. The atmosphere is intolerable – you can either look within and resolve some of your own psychological issues, or clean up on the outside. Expect to get your hands dirty.³³

The overall effect of this influence activates your inherent tendency to become involved with groups who seem to render you powerless, which evokes an intense need to be in control in social situations.³⁴

- Around May 1965 there are interesting developments in your love life. Perhaps there is something of a split between family demands and romantic needs, yet this is a very loving period. Romance is certainly in the air, but it may be necessary to travel to overcome the distance that separates you from your chosen partner. Socially too, this is a very active period, and you may find yourself doing a considerable amount of family entertainment. Still, love can lead you to stray from domestic duties.³⁵

Love and friendships can be one and the same for you. Apart from stimulating your social bonds at this time, you can find love in the arms of a friend. You meet a potential partner at a large gathering.³⁶

The influences described below will have an even more profound effect on your emotional life, awakening a powerful and often unconscious response. Ultimately this brings insight into your early conditioning and enables you to modify the way you instinctively react.

Expansion of comfort zone

A period of expansion in your personal life takes place from May 1965 to April 1966 which brings a general sense of well-being, partly based on a deeper understanding of the unconscious factors that motivate your actions. Your comfort zone expands – you are more comfortable with yourself, and more comfortable with your role in a family that is likely to be extended considerably. If you wish enlarge your home, move, or invest in property, good fortune tends to come your way without too much effort. Parents in particular can be very supportive, as will your environment in general. You have the confidence and faith to give empathy and support to those in need, and can show those people who are attached to you just how to enjoy life and have a good time.³⁷

This section maps out the timing and intensity of influences in your life that absorb your interest on a daily level, profoundly affecting everything, from your work to your family life. These influences constitute your emotional growth during the course of the year, and the main themes are:

- a time when you experience a boost in confidence and happy developments at home and in your family life.
- a time of ever-deepening emotional intensity when you gain psychological skills and deeper erotic authenticity.
- a transition from the need to build material security to an urge to communicate and travel.

Mental Development

DIGGING UP BURIED INFORMATION

Gaining skills through education and other forms of training is a major ingredient for success, both professionally and in relationships. Through developing your communication talents you can make contacts and build networks which facilitate progress.

With Mercury in your birth chart in Cancer and in the 10th House this relates to your deep and intuitive mental sensitivity, which you channel into career interests where contacts, ideas and communication are paramount.

During the age of 15 your mental focus is on creative self-expression. This is the time to take center stage and enlighten and entertain others with your inventive abilities. Thoughts dwell on children and love – these are areas you celebrate in word and deed.³⁸

Your mental abilities are channeled into areas to do with travel, education and working on your network. Communication is all important during the course of the year, and you may have special challenges in connection with people in your immediate neighborhood or with siblings.³⁹

Your natural empathy comes to the fore now, and you find it easier to tune in to others and address their concerns. Your skills for public speaking are accentuated, and this is an excellent time for family projects too.⁴⁰

Certain challenges arise.

You are easily misled during the course of the year, either because of the smokescreens that other people lay in your path, or because of your own dreams and escapist tendencies. Whilst this is a good time for creative, spiritual and artistic tendencies, don't get led astray by wishful thinking. The truth is elusive, but try to stick to it.⁴¹

The influences described below will bring additional opportunities and challenges in the field of communication. By rising to educational challenges and improving communication skills, you can add to your skills and capabilities.

Mental transformation and renewal

This is a period when you can learn the secrets of the mind through investigation of one sort or another, or through an interest in therapy and psychology. Deep-seated changes take place in your ideas and mode of thought, as new learning makes you aware of just how much you are conditioned by people and experiences from the past. This can be an intense process at times, and you tend to obsess and discuss to

the point when both you and other people get worn out. This transformation of the way you organize your mind spans the period from January 1963 to July 1966. You question everything, and this can mean that studies you have embarked on are dropped if they do not satisfy your need for depth and authenticity, or that people who have previously influenced your thinking are dropped in favor of new, wiser individuals.⁴²

Mental renewal

A very exciting period arises now during which you gain new insight into the mind, and into the way you think and communicate. An interest in unconventional subjects brings a fresh view of what is possible, and there may be specific training in the science of the mind. This is a particularly good time for travel and encountering new languages and fringe cultures. Long-distance commuting may also take place... it is worth traveling far to get more excitement in life. There is a strong sense of solidarity with people who circumvent the system and try to do things in a new way. Repetitive or boring projects are not easy to persevere with, and you are prepared to make changes, even if it means going against the status quo. This trend, which lasts from October 1963 to August 1966, brings revolutionary new thinking and greater familiarity with technological advances.⁴³

Mental discipline

The period from February 1965 to March 1966 is a time when you rise to the challenge in connection with education, communication and developing your intellect. This is the time to dedicate yourself to learning, and to overcome any reservations about your mental abilities. Planning, practice and determination are all that are needed to get your message across. Recognition and success do not come easy – if it did you would not have to work so hard, and hard work, at least mentally, is what life is about right now. You can work on and overcome any weaknesses in connection with the way you relate to others if you put your mind to it. This is an excellent time to study and write, even if there is an element of repetition or boredom in it. The more you discipline yourself, the better you get.⁴⁴

Your mental evolution is a product of the people you encounter during your life, who evoke certain qualities in you, as well as your contact with institutions of learning and educational media. The lessons you learn give depth and breadth to your personal message to the world. This year new opportunities arise.

Psychological initiation

You enter a time of considerable mental pressure around October 1964 journeying through a shadowy landscape which requires mobilizing your mental insight and survival abilities. You may experience that communication is cut off or that there are undercurrents in your daily life where people whisper secrets or in other ways undermine you. It's like being up against a robot, and there is little compassion to be found. Thoughts circle relentlessly in your brain, and even the nights are restless and filled with demons. Welcome to the underworld, where you are about to acquire some unusual communication skills. This is a great time for studying psychology and understanding the power of thought and the unconscious mind. Personally you discover the power to say No, which may mean cutting connections to people who only drain your resources. You meet a master of the occult.⁴⁵

A fertile mind

An extraordinarily fertile period for you mentally takes root around December 1964. It is a time of unparalleled mental growth when ideas spring up from the unconscious and you instinctively know how to connect. This is a brilliant time for memory, for public speaking, for teaching – especially children – and for connecting with others through ideas that strike a chord in the people. Family life is favored now and is characterized by a bubbling enthusiasm and emotional warmth. It is a time of quizzes and games, of mental gymnastics and outdoor activities too. You can reach a lot of people with your message, so you can also expect success in your professional life. Mothering qualities are evoked, but you realize that the greatest nourishment you can give is in the world of ideas, communication and mental growth.⁴⁷

As much of your emotional security is dependant on important relationships and partnerships, this influence brings significant change in this area and import adjustments.⁴⁸

The influences described in this section challenge you to develop intellectually, socially and in relation to others. Of all these influences, in terms of the enhancement and development of your mental skills the most significant will be:

- a time when there is a positive mental transformation leading to a reassessment of what you want to study and who you want to connect with.
- a time when you are willing to travel far, meet exotic people, work with new technology and languages, and generally revolutionarize the way you think.
- a time when you rise to a mental challenge and develop your knowledge and communication skills through hard, concentrated work.
- a time of mental crisis and transformation, when you dig deep to unearth hidden power and skills.
- a time of communication and connection, when you instinctively learn what is important.

Values, Love and Relationships

LONGING FOR IDEAL LOVE AND SPIRITUAL VALUES

Your need for relationship is very much dependant on your tastes, and early family experiences of bonding. These factors determine whether you feel attraction or not, or whether you are simply indifferent. People of similar tastes are instinctively attracted to you, as you are to them, and this is the basis of personal harmony in your relationships.

With Venus in your birth chart in Leo and in the 11th House this relates to your need to respect and be respected in love, and to be warm and romantic, which you will express particularly in group environments and in your friendships.

In relationship matters there may be a dilemma of choice during the age of 15. There are a number of options for you in matters of the heart, and you certainly have the talent and ability to reach out to a varied assortment of people. This is a year to cultivate the art of conversation and communication. Mastery of the spoken and written word, and the ability to express yourself with style, help you make contact between heart and mind.⁴⁹

You will find that the focus of relationships is greatly apparent in your inner life and dreams. In other words it can be quite difficult to put your love life on a practical footing, though not at all difficult to imagine the perfect relationship. Experience during the course of the year will teach you that you can trust the love in your own heart, but not in the hearts of others.⁵⁰

Family life is blessed by love and a happy event – perhaps connected with a daughter. You spend money on home comforts and invest in the things you have always wanted, adapting living conditions according to your taste. Thus you create an environment of beauty and harmony in which your important relationships can thrive. If you are looking for love, family connections are the key.⁵¹

You are empowered by the following.

This can hardly fail to be a romantic and passionate year. You are drawn deeper and deeper into intimate relations and fiery erotic attraction, and there is nothing for it but to let go and discover the rejuvenation quality of animal passions. If single you will be swept off your feet, if attached, then – if your head is not turned – you will go through heaven and hell because of your attraction.⁵²

This stirs up your inner life, which is an area where you tend to be over-imaginative this year.⁵³

Certain challenges arise.

Harmony in love is disturbed during the course of the year by irritations from the outside that can pain you. Perhaps you are forced to relate to someone else's hurt, perhaps someone throws you off balance by rejecting your advances. Don't get drawn or provoked; just create the space and acceptance to let what

happens, happen.⁵⁴

There are other major changes affecting relationships and values at this time, and the influences described below will bring opportunities to modify your need for others, and ultimately develop better ways of relating authentically.

Awakening longing

This is a period when many of your relationships undergo subtle change as you strive to realize an inner longing for love and meaningfulness. If you are dissatisfied with current relationships, or simply single, then romantic meetings at this time seem to fulfill your dreams and ideals, but should expectations be unrealistic you will be disappointed. Love at this time opens your heart and dissolves blockages in what is a healing process whatever the outcome of the actual relationship. In reality no one person can satisfy the deep need to merge with something greater that you can feel in this period, but spiritual and artistic pursuits can. This period of romantic confusion stems from a trend that lasts from November 1963 to September 1967 and it ultimately enriches your soul. It can also be that there is some form of sadness in partnership matters, and that this awakens a deep compassion within you. Sometimes there are trends in relationships that you have no control of, but simply have to be accepted. Economically too, there can be circumstances that cannot be controlled.⁵⁵

Strong romantic and material appetites

You are willing to go out on a limb for the sake of relationships, and perhaps also take a large economic risk in the period from May 1964 to April 1965. Whether your judgment is good on this is questionable, and they may also be ethical or moral concerns. Still, there is an intoxication with love, and desires are strong. Some might say life has to be lived here and now, others would say live now pay later. In the interests of economy, you may wish to check out an extra time whether you need the things you desire. As far as love is concerned, take care not to compromise what is truly valuable for short term gain. The emphasis is on travel for love and culturally different partners. What you long for in a relationship now is intellectual stimulation and a widening of your horizons. This can be achieved through involvement in cultural events.⁵⁶

Good fortune in love

There is a period of success for you both as regards your economy and your relationships from May 1965 to April 1966, and this brings a blossoming of confidence about your attractiveness and value as a person. If you are looking for romance, you will surely find it – especially if you travel to a romantic place. This is a good time for relationships with people from cultures you admire. You are particularly attracted to wise and cultured people who can teach you something. Generally you can afford to expand, spend more and really appreciate what life has to offer. Now is the time to both harvest and enjoy the fruits of efforts that you have made in the past, and to generously share your good fortune with those you love.⁵⁷

The influences described in this section will all have a significant effect on the way you relate to the world. In terms of your material values and matters of love, the most important of all these influences will be:

- a time when you are moved by a deep longing within your heart. Disappointment or difficult circumstances in your love life awaken new dimensions of compassion.
- a strong stimulation of your romantic nature with a corresponding difficulty in making the right judgment.
- a time when you can enjoy the good life. Experiences with friends and lovers, especially when traveling or experiencing culture, boost your confidence and self-worth
- choices in relationship and the development of refined modes of expression.

Sex, work, willpower and assertion

PUSHING YOUR PERSONAL AGENDA

Nothing is achieved in life without the force and determination to go for what you want. There are battles to be won and obstacles to be overcome, and this means being able to assert yourself, and to mobilize your courage to face challenges and overcome resistance.

With Mars in your birth chart in Gemini and in the 9th House this relates to your need to vigorously express your ideas and be involved in a multiplicity of ventures, and this manifests as a energetic urge to propagate your views, and explore the world.

As regards personal drive the age of 15 is a year when you are strongly motivated to travel and learn, and quick to take the initiative when it comes to communication. You cover a lot of material educationally, though there tend to be clashes of ideas.⁵⁹

Your energy and will is channeled into private areas of the imagination and your spiritual life. Fantasies can however disturb your equilibrium. There is a sense of being imprisoned and helplessness in the face of inner demons.⁶⁰

This is a year you take new initiatives in groups that are meaningful for you – perhaps assuming a leadership position. A change in your role might be a good thing, especially if it means fighting for a cause.⁶¹

Certain challenges arise.

An old wound is opened and painful memories awakened. You are willing to take up a struggle but flirting with danger could create more pain. Sometimes surrender and acceptance is the way to go, but if you choose to do battle, perfect your weaponry.⁶²

The influences described in this section will bring changes in the way you strive for achievement. Of the many influences affecting your energy, sexuality and assertiveness this year the main areas to be aware of are:

- a time when you learn a lot, travel a lot and meet a lot of people.
- a time when you learn a lot, travel a lot and meet a lot of people.⁶⁴

Collective trends

DISSOLUTION OF ANXIETY

The influences mentioned so far in this analysis have an effect on your psychological evolution and fate which is strictly personal. There are other influences on your life based on your relationship to the collective, which can be just as exciting and stimulating for you, even though they may not evoke dramatic personal change.

The welling up of the unconscious

This is a period when strategies that involve giving ultimatums or using power to gain control over the scene simply do not work. If you could identify exactly what you wanted to achieve, control might be achievable, but the goalposts are constantly moving. You are caught up in something mightier than yourself and this could be the time to surrender to higher forces. Any material that has been suppressed by your unconscious tends to leak out now, and you can gain a growing awareness of just how much of your life is ruled by the subconscious. This is worth meditating on. This baptism into the deeper influences on your personal evolution is connected to a trend that lasts January 1963 to October 1965 and it initiates you into universal truths about the human condition.⁶⁵

Ideological impact

A deep insight into the hidden side of your inner and outer life arises in the period May 1965 to April 1966 and you have the potential to learn just how powerful unconscious forces can be. You may be able to channel this power into your work, in dealings with the elite, in studies through magic and psychology and in travel, through visiting places of mystery. What becomes especially apparent to you is the force of a brand or an icon – how a single powerful idea can exert an enormous collective influence. If you can learn how to use this knowledge your work can have far greater transformative impact.⁶⁶

Bridging old and new

The period February 1964 to March 1965 is a time when you consolidate the new thinking which characterizes your generation, and see it integrate into the existing structures of society. You can build a bridge between the old and the new now, maintaining respect for tradition, whilst facilitating change and new possibilities. You can make friends amongst those older than yourself, and build relationships which are mutually beneficial. By keeping the balance between the old and the new, you maintain your professional edge. To make your mark in society you need to express your own unique individual qualities; this is the time to do so whilst working within the established system to make sure your contribution is implemented.⁶⁷

During the age of 15 you are deeply involved with establishing yourself in the world and you meet constant challenge in your outreach to other people, as you struggle to formulate your views and ideas about how you would like life to be for you. Weaknesses in communication are highlighted, but you soldier on, breaking with the past and establishing your own security foundations and methods for creating prosperity. Your constant efforts mean that you begin to show up on the radar of others, and the way you present yourself will determine whether you are welcomed or rebuffed. To ensure that your light is seen, you busy yourself acquiring new people skills and educational expertise, which prepares you for the establishment of a strong base, on which you can later build

Seen from another viewpoint, there is a purposeful evolution in your life, and each of the events that arise can be seen as milestones on the journey of your soul. There are some fields of your experience which you are all too familiar with, and perhaps you need to relinquish your attachment to them. Other areas of experience present new and interesting challenges for you soul, and require total immersion.

The primary evolutionary focus in the year is a baptism into the strong emotions evoked by intimate relationships and sexual experience, and the anxieties, jealousy and possessiveness powerful attraction leaves in its wake. The need for safety – both emotionally and materially – brings stagnation, whilst a world of passion brings much-needed psychological transformation. Sometimes it is worth taking a loss to get something of greater value.⁶⁸

The collective influences described above are very much related to the generation of which you are a part, and opportunities now arise to capitalize on trends that your generation will resonate to. The most important of these are:

- a time when the unconscious wells up from within, revealing just how strong collective influences are in your life.
- a time when you are initiated into the inner transformative power of ideas, and can use them to create great impact in both your inner and outer world.
- a time when you are encouraged by the establishment to manifest those qualities which make you unique.

The influences described in this report are based on planetary cycles, transits of the outer planets and progressions of the inner planets in an integrated description which also takes into account the major factors in your birth horoscope. Thousands of factors are taken into consideration, making this report completely unique to you for the next twelve months. Rather than make specific predictions, we have tried to describe how you can make the most out of the many changes that are taking place. By defining what you really want, and going for it, you can weather the storms and currents described in this report and come safely to the destination that you are aiming for. It is in this context that the major events of this year should be seen.

Some of the themes from this year will continue into the next year, and some completely new themes will arise. Looking at the three most important events at the age of 16 you can expect change in the following areas:

You experience a steroid boost that gives you the strength and courage to fight for what you want. Putting softer considerations aside you take a risk to expand your territory, traveling afar and meeting exciting people. You give yourself fully to your desires, both intellectually and bodily.

A fortuitous culmination of events puts you in the position to increase your influence professionally and gain success and recognition. This is the time to believe in yourself and take a risk or two. Make use of influential contacts at home and abroad to expand.

A fruitful and creative period arises, when you integrate your aesthetic and artistic skills into your work and communication. Both friendships and romance are favored, and you bewitch others with your oratory and charm.

These events - both good and bad - can be seen as a treasure chest for the personal journey of your soul.

Every event that arises has meaning for you and is a result and consequence of previous actions. If you are able to see the challenges that arise as opportunities for constructive change, then your growth will be rapid, and you will be able to truly appreciate and enjoy the many positive events that also arise during the course of your year.
